**MILGARD ADDS NEW OPTIONS TO FIBERGLASS WINDOW OFFERING**

*- New colors and Full Lifetime Warranty now including glass breakage coverage enhance the Ultra™ and WoodClad™ lines -*

**SAN FRANCISCO (June 25, 2008)** — Milgard Windows & Doors has extended the industry-leading Full Lifetime Warranty including glass breakage coverage to the complete fiberglass line, and added new color options. Colors include Silver Pearl and Matte Black for the exterior and Mahogany species for the interior, providing even more design flexibility for the fiberglass product lines.

The Full Lifetime Warranty including accidental glass breakage coverage lasts as long as the homeowner owns or resides in the home. In addition, if the original owner moves within 10 years of installation, the full warranty transfers to all new owners for the remainder of the 10-year period. This warranty also pertains to owner occupied multifamily residences. Coverage is extended to the original purchasing homeowner for as long as they own or reside in the home – including materials and labor.

“Builders can now provide peace of mind that if damage occurs to a window, it will be repaired for as long as the homeowner is in their home” said Maureen Faccia, Director of Marketing for Milgard. “While our products are built to be durable, accidents can happen and we want consumers to know that all window issues will be resolved if problems do occur.”

Silver Pearl and Matte Black, available on the Ultra and WoodClad™ Series, helps consumers maintain a classic look similar to aluminum windows. Architects that favor clear anodized aluminum in designs because of the color can now utilize an energy efficient fiberglass window.

-more-

The silver pearl color also opens up new opportunities for using energy efficient fiberglass in commercial projects such as store fronts, multifamily, and multi-use buildings.

The WoodClad Series now comes in Mahogany – a classic dark wood with unique grain pattern creating appeal inside the home. Fiberglass windows, available in Mahogany and Douglas Fir, allow designers to customize the interior of the project to suit the taste of the customer.

“Silver pearl, Matte Black and mahogany are great for new construction projects, as well as for certain remodeling projects,” Faccia said. “The colors incorporate a classic or warming feel with contemporary energy efficiency, design and construction standards found on Milgard windows. Customers love the fact they can get custom size, great looking windows with a short lead time.”
