Milgard is the Best Quality Vinyl Window in Western US

Tacoma, Wash. (April 17, 2020) – Milgard® Windows & Doors earned the top award for quality vinyl windows in the Western United States from BUILDER Magazine, the leading media brand for the residential construction industry.

The annual BUILDER Brand Use Study surveys qualified builders, general contractors and developers. They are asked to score a variety of brands spanning 50 building product categories and provide feedback on quality, usage and familiarity. This data is used to help identify top brands in the industry.

“We are well known for producing high-quality vinyl windows and this recognition is testament to that,” said Jeremiah Noneman, senior marketing director at Milgard Windows & Doors. “Milgard manufactures custom-made vinyl windows and patio doors for new construction projects and replacement window applications and we’re pleased to note that this is our tenth win in the quality vinyl category.”

In addition, Milgard was also recognized as the Most Used vinyl and fiberglass window brand in the Western US.

“Our BUILDER Brand Use Study confirms that it is critical for building product manufacturers to demonstrate advanced product features, performance and quality to set themselves apart from their competitors,” said Ron Spink, Executive Vice President, Design / Build Group. “A strong brand identity and reputation; as well as advanced product features and quality are essential to reaching and driving adoption among builders.”

Milgard is offering a special vinyl window and patio door rebate promotion in celebration of their recognition. Homeowners have the opportunity to buy now to lock in the savings, then install at a later date this summer. Learn more at: <https://www.milgard.com/tax-refund>
