HOW TO CHECK FOR WINDOW CONDENSATION

Materials Required:

- Soft cloth
- Glass Cleaner
- Safety glasses and gloves

For a list of window terms please go to Milgard.com/How-To-Speak-Window

Safety Precautions:

This activity is appropriate for individuals with an understanding of how to use simple hand tools. Remember to wear eye protection and to make sure that pets and small children are not present when performing these activities.

Instructions:

1. Using glass cleaner and a soft cloth, start by spraying the window and wiping the interior glass to determine if condensation is occurring on the inside. If condensation doesn't wipe off from the interior continue to the outside of the window.

1. Using glass cleaner and a soft cloth, spray the window with glass cleaner and wipe away on the exterior of the glass. If condensation doesn't wipe off from the exterior then contact Milgard service to schedule an "insulated glass unit" replacement.
