MILGARD FORMALIZES MEXICO DISTRIBUTION WITH NEW BAJA SHOWROOM

TACOMA, Wash. (May 19, 2010) – Milgard Windows & Doors, a leading manufacturer of windows and patio doors, has formalized its growing relationship with window dealers in Baja Mexico and beyond by participating in a new showroom space with Pacific Fenestration Solutions in the San José del Cabo area.

Milgard's energy-efficient product line and experience with the similar Southern California climate and architectural style has built a strong following in Mexico, making the expansion south from California an easy one. The new Milgard display space at the Pacific Design Center in San José del Cabo will open at the end of May with product coming from Milgard's Temecula, California plant and distribution center.

"Milgard is a familiar name to many of the builders and architects in Baja California. The new showroom presence will allow us to better serve these customers," said Scott Morgan, VP of Sales and Marketing for Milgard. "Our Energy Packages, ease-of-use hardware and many frame options make Milgard a desirable brand for both residences and larger developments."

Milgard's SunCoat® and SunCoatMAX® Low-E glass and EdgeGardMAX® spacers all contribute to make cooling costs less of a concern when building or remodeling a property in the perfect weather of the Baja peninsula.

"With Milgard's growing brand awareness in Baja, we've experienced increased demand for our windows and patio doors in the region. We're very excited to have an

-more-

additional presence to serve our dealer partners and homeowners and we're looking forward to opening the new showroom space at the end of this month," added Morgan.
