Milgard Moving Glass Wall Systems named Professional Builder’s ‘Top 100 New Building Products’ for 2014

Tacoma, WA (September 8, 2014) – Milgard Moving Glass Wall Systems, an innovative line of large doors, has been named to Professional Builder magazine’s Top 100 New Building Products of the year. The top 100 were chosen based on reader responses of the past 12 months.

Milgard developed [Moving Glass Wall Systems](#) to make a previously high-end only option available to a wider range of homeowners. The glass walls come in 12 standard sizes with three operable style options: bi-fold, stacking and pocket. The product line helps create a contemporary look with its clean lines and natural interior colors such as Dark Anodized Bronze, clear vertical grain Douglas Fir and Pine. The all-aluminum frames are thermally broken for improved energy efficiency.

With Moving Glass Wall Systems, homeowners can enjoy a seamless transition from outdoors to indoors and open their homes to more natural light and fresh air.

Professional Builder features the Top 100 New Products of 2014 in its most recent print issue and on HouzingZone.com.

About Milgard Windows & Doors Corporation

Milgard Windows & Doors, a Masco company based in Tacoma, Washington, offers a full line of vinyl, wood, fiberglass and aluminum windows and patio doors for builders, dealers and homeowners, all backed by a Full Lifetime Warranty, including parts and labor. The company has been recognized for manufacturing the nation’s highest quality vinyl windows eight times in a yearly survey sponsored by Hanley-Wood Inc., publishers of BUILDER Magazine. Milgard has approximately 3,800 dealer locations nationwide. For more information, visit milgard.com or call 1.800.MILGARD.
