**MILGARD'S ULTRA™ WINDOWS & PATIO DOORS NOW AVAILABLE
WITH MATCHING INTERIOR & EXTERIOR IN SELECT COLORS**

SAN FRANCISCO (June 17, 2009) — Milgard Windows & Doors now offers its fiberglass Ultra™ Series windows and patio doors with the option of having the interior color-matched to selected exterior color finishes. Previously offered only in white, builders and homeowners can now carry their exterior color choice inside for a coordinated look when ordering tan, brownstone, matte black and silver pearl color choices.

Milgard's Ultra Series fiberglass is the ultimate window frame material for both new construction and replacement applications. Because it's made of glass fibers, it expands and contracts at the same rate as the insulated glass it holds. This reduces the chance for seal failure and results in a clear, fog-free window that lasts for years and years.

Ultra Series fiberglass windows and doors combine a traditional looking wood-frame profile with the strength, stability and low maintenance of fiberglass. And for multi-unit projects, Milgard offers the option of custom colors applied at the factory. Milgard fiberglass windows are custom made to the home's exact specifications at no extra charge or extended lead time. You can customize them with our wide selection of hardware finishes and virtually endless grid options. All Milgard fiberglass windows and doors are covered by our Full Lifetime Warranty with Glass Breakage.
