**Milgard Team Members Support Habitat Housing Project for 9<sup>th</sup> Year**

TACOMA, Wash. – Milgard Windows & Doors team members donated their time for the 9<sup>th</sup> year in a row assisting Tacoma/Pierce County Washington Habitat for Humanity on a recent Build Day.

From putting down bathroom sub-floors to preparing the foundation for cement pouring, the Milgard team learned new skills while spending the day together. Their efforts help Habitat for Humanity support the local community with affordable housing.

“It is always great to see Milgard support and be part of a cause that aligns so well with our values as a company,” said Brent Wright, Product Manager for Milgard Windows & Doors. “I’m happy we were able to help move this project just a little bit further along to provide housing for those in need.”

Upon completion, this home will feature Milgard® Style Line® Series V250 dual-pane vinyl windows, as well as the new Trinsic™ Series V300 vinyl windows. Habitat chooses Milgard for many of their projects due to their durability and energy efficiency.
